Powered blinds

Portal Powered Blinds from AlluGuard is a simple... ..but brilliant concept. Every blind includes a rechargeable Lithium Ion battery for wire-free powered operation.

- Eliminates the need to install or replace batteries
- Capable of lifting larger shades
- Adjustable speed control provides enhanced aesthetics
- Compatible with the Telis Modulis RTS to provide precise control for slat and vane positioning
- Controllable with simple voice commands using Amazon Alexa.

How long will shades operate before the Li-ion batteries need to be charged?

You can expect approximately 1 year of shade operation before the batteries need to be charged. This is based on an average shade size of 72" x 72" that is operated one cycle per day.

The collections

Carnival

The perfect plain range, a hand-picked palette of 48 stunning colours. Each blind has a colour matched fabric insert on the cassette fascia.

So simple,
so easy &
so brilliant!

Carnival Blackout

24 of our stunning Carnival colours are replicated with a self coloured blackout finish

Voile

Voile shades the room and enables a glimpse to the outside world.

Perspective

A sleek, wide width, finely woven 3% screen fabric, perfect for a modern look.

Capri & Capri Colour

A cool and contemporary, finely textured Vision fabric in fashionable urban or eye-catching colours.

Wood Venetian Slat

A beautiful selection of wood Venetian colours to suit any interior in 50mm slats

Controls

Select from a wide variety of hand-held remotes, wireless wall switches, timers, sensors or a smartphone/tablet app including voice control.

Telis 1 & 4 for remote control

Telis 1 & 4 Modulus for remote control and slat angle adjustment

Smooove wireless wall switch

Tahoma & Connexoon Smart home control
